

Section Overview

Introduction The objective of this section is to provide a concise, user friendly job aid for the user at the PERSRU to complete a PCS Departure event in SDA II on a reserve member coming on extended active duty greater than 139 days. This event contains information on:

- Purpose of the event
- Any references
- Fast Path ID and Data Entry
- PCS Departing Transaction (with SDA II screen examples and field descriptions)

Note: Element codes (highlighted bold in parenthesis) are provided on the SDA II screen examples, however this information does not appear on the screen in SDA II.

- What effect the PCS Departing transaction has on PMIS/JUMPS
- If corrections or deletions can be made to the PCS Departing Transaction

VERY IMPORTANT: Please refer to the appropriate section in Chapter 2 of this manual to complete additional transactions required in connection with this event, but not covered in this chapter.

In this Section The following topics will be discussed in this section:

PCS Departing Event for Reserve Members Coming on Extended Active Duty Greater than 139 Days

Purpose This PCS Departing event is used to complete the necessary transactions (which may require input into PMIS/JUMPS) on a reservist who is coming on extended active duty for greater than 139 days. This event also creates the Standard Travel Orders (CG-5131).

Note: This event should **not** be used for:

- Reserve members, who are not on extended active duty, being transferred from one unit to another.
- Reserve members who are currently on extended active duty for greater than 139 days.
- Creating Retirement or RELAD orders on a reserve member who is currently on extended active duty.

Fast Path ID and Data Entry Enter “tpcsdpt” for Fast Path ID or press “AAAA” from the Main Menu Screen in SDA II. Enter the member’s SSN or last name and press ‘GO’ or F1. The following question will be asked: **‘Is this reservist entering extended active duty (140 days or greater)?: N’**

Note: If this question does not come up on the member, then the information that the system has on the member is incorrect (not showing the member as a reservist) and the System Administrator should contact the SDAII team at HRSIC to correct the problem.

For this event, the question should be changed to “Y” for YES. Press <GO> or F1.
